

Flexible Heating Film

Features

- Applied flexible film + heating material
- Safe without deformation of copper foil when folded
- Easy to carry : Flexible, thin and light
- The use of low voltage : Wide application range
- Variable size: Within width 50~300mm and length 50~500mm, it is available to make standard module that meets customer's requirements. And standard module can be connected to expand the heating film size.

Application

- Heating vest / glove / hat
- Heat pad for back / abdomen / joints
- Wheelchair heating cushion
- Temperature control system for the outdoor display system inside
- Automotive seat heater

SPECIFICATION			
Model		NFHF-05, 12, 24	
Thickness(mm)		0.5 ~ 1	
Power Input(V)		DC 5	
		DC 12	
		DC 24	
Dimension (Heating area) ※ Customization available	Width(mm)	Min.	50
		Max.	300
	Length(mm)	Min.	50
		Max.	500
Maximum surface temperature(°C)		~ 60°C	

* The specification is subject to change without prior notice
